

Slidev Xebia Theme Starter

Presentation slides for developers

What is Slidev?

Slidev is a slides maker and presenter designed for developers.

- **Text-based** - focus on the content with Markdown, and then style them later
- **Themable** - theme can be shared and used with npm packages
- **Developer Friendly** - code highlighting, live coding with autocompletion
- **Interactive** - embedding Vue components to enhance your expressions
- **Recording** - built-in recording and camera view
- **Portable** - export into PDF, PNGs, or even a hostable SPA
- **Hackable** - anything possible on a webpage

Navigation

Hover on the bottom-left corner to see the navigation's controls panel.

Keyboard Shortcuts	
<code>space</code> / <code>tab</code> / <code>right</code>	next animation or slide
<code>left</code> / <code>shift space</code>	previous animation or slide
<code>up</code>	previous slide
<code>down</code>	next slide

You can also create buttons and hook up navigation in-page:

All layouts

A lot of layouts are available out of the box, all styled with the official Xebia presentation theme.

- cover
- cover-dark
- toc
- toc-two-column
- intro
- intro-duo
- default
- two-column
- three-column
- three-column-dark
- image-left
- image-left-dark
- image-left-variant
- image-right
- image-right-dark
- image-right-variant
- chapter
- thank-you
- thank-you-dark
- end

The following pages contain examples of all layouts.

Layout cover

The cover slide. If not overridden, this will be used for the first slide.

Layout cover-dark

A variation of the cover. Note that background properties can be manipulated as well.

Layout toc

Subtitle

Provide a table of contents of your presentation.

Layout toc-two-column

Left column

Variant of the table of contents with two columns.

Right column

Lore ipsum dolor sit amet, consectetur adipiscing elit.

Layout intro

Janet Doe

Senior Consultant

- Used for personal introduction.
- Write some fun content about a speaker and their hobbies.

Layout intro-duo

Janet Doe

Senior Consultant

Some content.

John Doe

CTO

- Some other content.
- And another bit

Layout default

This is the fallback layout when `layout` is not specified in the frontmatter.

- Use this layout for most of your slides.
- Lists are stylized.
 - You can create long texts in each list item and they will be wrapped. Really long texts such as this one will be wrapped to the next line.
 - You can create nested lists as well.
- You can use **bold** or *italic* text.
- Use `inline` code for code snippets.
- You can also create [links](#).

Layout two-column

Left column

For two column layouts with an optional header.

Right column

1. Lorem ipsum dolor sit amet, consectetur adipiscing elit.
2. Sed do eiusmod tempor:
 - incididunt ut
 - labore et
 - dolore magna aliqua.

Find Xebia icons [here](#)

Layout three-column

Title

Create a table in Xebia style using Markdown table syntax.

Add images

Colors

Variation of color per column

Layout three-column-dark with explicit line break in title

For three column layouts with an optional header.

This is the first column.

This is the second column.

Third column.

- You can create lists etc.
- Another item
- Another item

Layout image-right

Subtitle

Slide with image on the right side. Text can be long and is wrapped to the space available.

Find Xebia photos [here](#)

Layout image-right-dark

Subtitle

A variation of the image-right layout.

Layout image-right-variant

Subtitle

A blob variation of the image-left layout.

Note: requires a `content` section.

A blurred background image showing a person's hands using a computer mouse on a desk. There are papers and a notebook visible on the desk.

Layout image-left

Subtitle

Slide with image on the left side. Text can be long and is wrapped to the space available.

Layout image-left-dark

Subtitle

A dark variation of the image-left layout.

Layout image-left-variant

Subtitle

A blob variation of the image-left layout.

Note: requires a `content` section.

Chapter 42

Layout chapter

Chapter 21

Layout chapter-dark with a long title

Layout thank-you

Thanks and so long!

Layout thank-you-dark

Thanks and so long!

xebia.com

Layout `end`

Used to end the presentation.

Slidev specific features

Syntax highlighting

Use highlighted code snippets.

```
class Player:

    def __init__(self, name):
        self.name = name
        self.speed = 50

    def increment_speed(self, value):
        self.speed += value
```

TypeScript & Twoslash integration

Enable type information overlay for TypeScript files.

```
function updateUser(id: number, update: Partial<User>) {  
    const user = getUser(id);  
    const newUser = { ...user, ...update };  
    saveUser(id, newUser);  
}
```

See the [docs](#) for notation.

Importing code snippets

Create code snippets from external files, with optional line highlighting and Twoslash integration.

```
function foo() {  
    return 1;  
}  
  
foo();
```

Imported slide 1

Slides can be separated in multiple files.

Add the following frontmatter to a slide to import:

```
src: /pages/two-slides.md
```

Imported slide 2

Each file can have multiple slides.

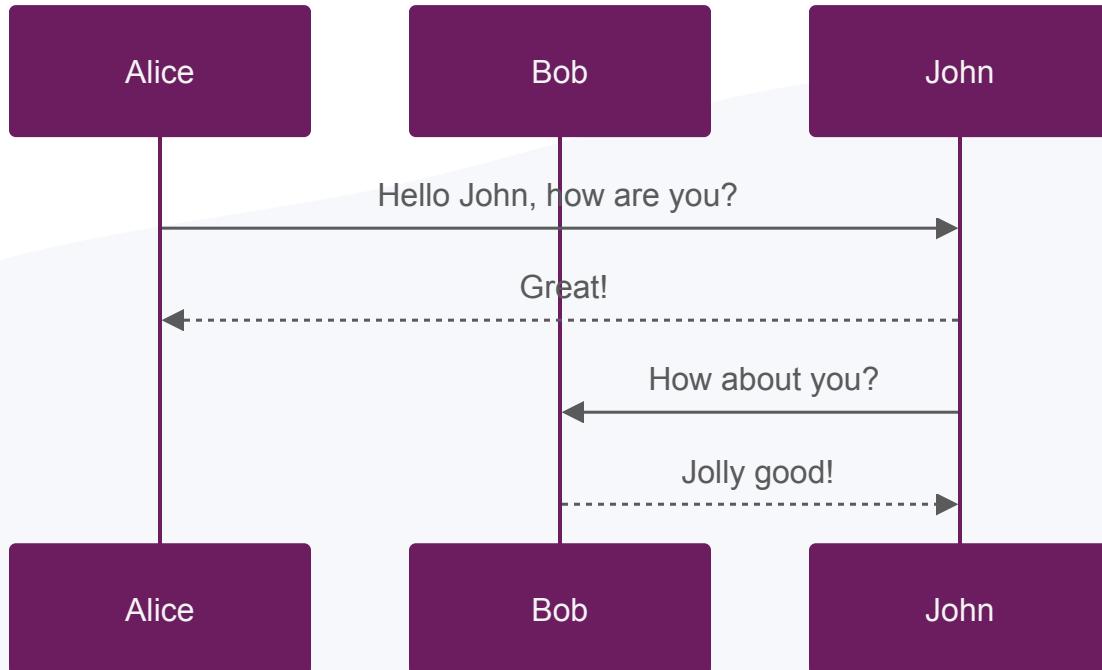

Importing does not mess up the slide number.

Mermaid graph diagrams

Quickly add diagrams with Mermaid.

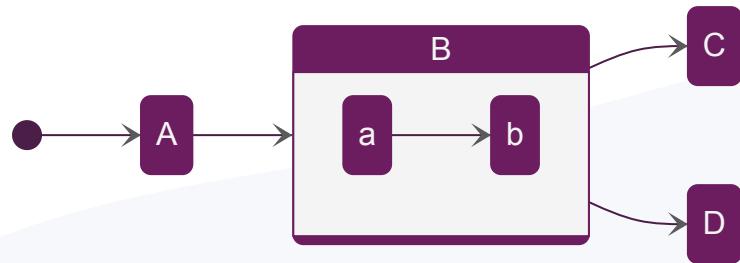

Mermaid sequence diagrams

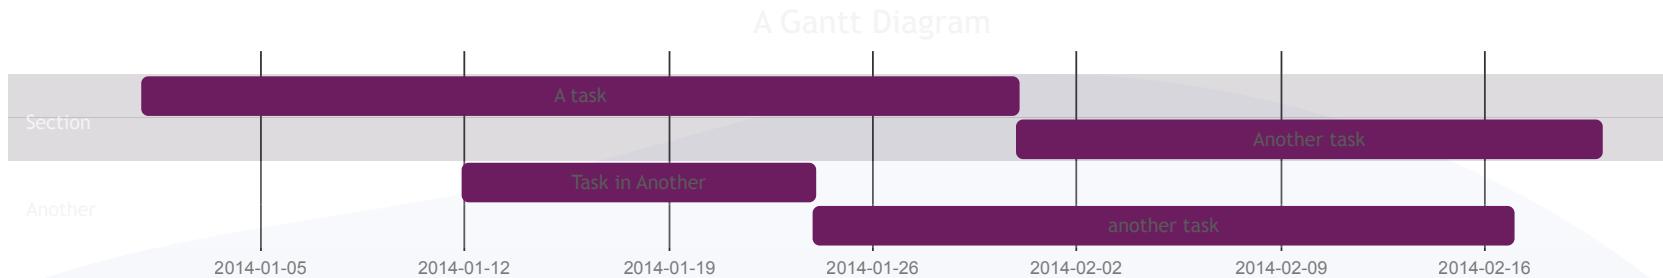

Mermaid state diagrams

Create elaborate state diagrams.

Mermaid Gantt chart

Note: Styling Gantt charts and others is still work-in-progress. PRs are welcome!

Embed tweets

Embed videos

The image shows a video player interface. At the top left is a circular profile picture of a person with dark hair. To its right is the text "Slidev First Preview Demo". On the far right is a share icon with the word "Delen" below it. The main content area features a large blue "Sliderv" logo with a red play button icon integrated into the letter "e". Below the logo, the text "Preview Demo in 30s" is displayed. In the bottom left corner, there is a dark button with the text "Bekijken op" followed by a YouTube logo and the word "YouTube".

Slidev First Preview Demo

Delen

Sliderv

Preview Demo in 30s

Bekijken op YouTube

Math equations

Inline equations: $\sqrt{a^2 + b^2} = c^2$

Block equations:

$$\zeta(2n) = (-1)^{n+1} \frac{B_{2n}(2\pi)^{2n}}{2(2n)!} \quad (1)$$
